Col. Earl McFarland, Jr., USAF
Room 2A-270, The Pentagon
Washington 25, D. C.

Dear Colonel McFarland:

With reference to your request of 5 August 1958 for organizational charts, the Division of Intelligence, U. S. Atomic Energy Commission, has the following to offer:

Milton E. Jenkins - Representative to GMIC
Deputy Director

John A. Anderson - Alternate Rep. to GMIC

Intelligence Specialists at AEC function as liaison officers to other organizations and as analysts on intelligence problems of particular concern to the AEC. We do not have a research effort in guided missile intelligence other than that devoted to the problems of nuclear warheads and propulsion for such missiles.

Sincerely yours,

Milton E. Jenkins
Deputy Director
Division of Intelligence
